

- **University of Pennsylvania** Philadelphia, PA, USA
Research Coordinator, Prof. Dan Hopkins *Aug. 2023 - Aug. 2025*
 - Built reproducible data pipelines: from collecting and processing data of varied types (e.g., survey responses, web-scraping election returns), to overseeing LLM annotations, data cleaning, and statistical analysis utilizing diverse statistical methods (e.g., OLS, maximum likelihood models), to visualizing findings and drawing empirical conclusions.
 - Designed surveys fielded in varied countries and languages, employing logics including quotas, randomization, open-ended responses, feeling thermometers, and conjoint experiments.
 - Managed a team of approximately half a dozen undergraduate researchers each semester, supervising tasks such as programming in R, annotating open-ended survey responses, collecting election and survey data, and compiling literature reviews.
- **Mitvim - The Israeli Institute for Regional Foreign Policies** Ramat Gan, Israel
Researcher *May. 2020 - Aug. 2021*
 - Authored eight extensive monthly reports on US Middle East policy, interrogating relevant Congressional and diplomatic developments; topics included US-Israel relations, efforts to end the war in Yemen, and US-Turkey tensions.

SELECT DATA & PUBLICATIONS

- Hopkins, Daniel J. and Gall O. Sigler (2024). **Not of Primary Concern: Assessing Ideological Voting over Time in U.S. Primaries, 2008-2024**: Analyzed correlations between precinct-level primary vote shares, drawing on both content analysis of hundreds of newspaper articles and Bonica (2023)'s DIME scores to discern candidates' ideological positions; authored the code almost in its entirety, and compiled the *replication materials*; personally presented at the 2024 American Political Science Association Annual Meeting in Philadelphia.
- Abascal, M., Armenta, A., Halm, W., Hopkins, D. J., Sigler, G. (2024). **Calling the Kettle White: How Material Stakes Impact External Racial Classification**: Conducted marginal means analyses of the results of a conjoint experiment, evaluating how the predictiveness of attributes differs across ethnic/racial subgroups and conditions; personally presented at the 2025 Elections, Public Opinion, and Voting Behavior conference at Stony Brook University.
- Hopkins, D., Lendway, P. Sigler, G. (2024). **Public Support for Cross-Issue Compromises in the U.S**: Examined support for cross-issue compromises in an embedded experiment across three novel surveys, assessing varying support by political engagement and partisanship. I also created fixed effects models gauging issue salience's impact on support for compromise accounting for specific policies' effects.
- Sigler, Gall (2022) **The Religious Seculars: How Does Yom Kippur Impact Electoral Turnout?**, Dartmouth Undergraduate Journal of Politics, Economics and World Affairs: Vol. 1: Iss. 4, Article 1.: Capitalizing on the fact that Yom Kippur and municipal elections in Israel are held weeks apart but at different times every cycle, I design a novel empirical design assessing how proximity to Yom Kippur relates to turnout in Jewish religious and Jewish non-religious municipalities (employing Palestinian municipalities as control).

SELECT JOURNALISM & WRITING

- **The Forward, Editorial Intern (Jun. 2023 - Aug. 2023)**: Authored 15+ articles on diverse topics, including American politics and antisemitism at quick turnarounds, involving extensive research and interviews.
- **The Washington Monthly, Editorial Intern (Jan. 2023 - May 2023)**: Authored web-articles; conducted online research and interviews, analyzed and visualized data, and fact-checked pieces for the print magazine.

EDUCATION

- **New York University** New York, NY, USA
Politics PhD Program; GPA 4.00 *Aug. 2025 - Jan. 2026*
- **Yale University** New Haven, CT, USA
BA in Political Science; GPA 3.97 *Aug. 2019 - May 2023*
 - *Magna cum Laude*, awarded to no more than the top 15% of each graduating.
 - *Phi Beta Kappa*, one of 10 Political Science majors from the Class of 2023 to be awarded.
 - *Daniel Siegel Undergraduate Research Fund Grant*, used to support quantitative senior thesis research into the relationship between the formation of a pre-electoral coalition and public opinion among its constituents.
 - *Fulbright Research Award 2025*, to enroll at the University of Copenhagen Social Data Science MSc Program; declined.

SKILLS

- **Data**: R, Python, SQL, Javascript, HTML, CSS, Qualtrics, Git, OpenAI API, L^AT_EX, WordPress, Zotero, Datawrapper
- **Methods**: OLS & MLE, unsupervised learning (e.g., k-mean clustering, PCA), causal inference (e.g., DiD design, IV)
- **Languages**: English (native), Hebrew (native), Arabic (limited proficiency)
